

PROCESSED METALS INNOVATORS

Capabilities Statement

MANUFACTURING EXCELLENCE NOTHING LESS.

OUR CORE COMPETENCIES

PMI, LLC is a fully integrated steel fabrication facility. We specialize in metal stamping, laser cutting, punching, bending, welding, and assembly work. We have the unique capability to source materials directly from the mill and process those materials in-house on our slitter and blanking line. The combination of these core competencies provide our customers with the lowest possible cost of acquisition.

MANUFACTURING EQUIPMENT

- Large stamping presses up to 2000 tons with bed sizes up to 60" in width by 144" in length.
- Laser cutting of material up to 1" thick.
- Precision air bending of parts as small as a thumb nail, to as large as 10' in length.
- Robotic and manual welding.
- Complete and partial assembly, kitting, and inventory management.
- Pem, weld stud, spot welding, and part making.

CUSTOMER PROFILE

- Prime Federal and State DOD contractors
- International OEM's in the power generation, heavy truck, oil and gas, appliance, and educational and institutional furniture industries
- Part volumes from proto-type to one million plus
